#### **U.S. GAAP Financial Results**

For the December 2021 quarter, revenue was \$4,227 million, gross margin was \$1,978 million, or 46.8% of revenue, operating expenses were \$640 million, operating income was 31.7% of revenue, and net income was \$1,195 million, or \$8.44 per diluted share on a U.S. GAAP basis. This compares to revenue of \$4,304 million, gross margin of \$1,977 million, or 45.9% of revenue, operating expenses of \$605 million, operating income of 31.9% of revenue, and net income of \$1,180 million, or \$8.27 per diluted share, for the quarter ended September 26, 2021 (the "September 2021 quarter").

#### **Non-GAAP Financial Results**

For the December 2021 quarter, non-GAAP gross margin was \$1,979 million, or 46.8% of revenue, non-GAAP operating expenses were \$627 million, non-GAAP operating income was 32.0% of revenue, and non-GAAP net income was \$1,207 million, or \$8.53 per diluted share. This compares to non-GAAP gross margin of \$1,980 million, or 46.0% of revenue, non-GAAP operating expenses of \$586 million, non-GAAP operating income of 32.4% of revenue, and non-GAAP net income of \$1,192 million, or \$8.36 per diluted share, for the September 2021 quarter.

"Lam delivered record calendar year 2021 financial performance within a robust wafer fabrication spending environment" said Tim Archer, Lam Research's President and Chief Executive Officer. "While supply chain conditions worsened in late December and are causing near-term impacts to our results, we expect wafer fabrication equipment investments to again increase in calendar year 2022, leading to another strong growth year for Lam."

#### **Balance Sheet and Cash Flow Results**

Cash and cash equivalents, short-term investments, and restricted cash and investments balances increased to \$5.6 billion at the end of the December 2021 quarter compared to \$4.9 billion at the end of the September 2021 quarter. This increase was primarily the result of \$1.4 billion of cash generated from operating activities, partially offset by \$415 million of share repurchases, including net share settlement of employee stock-based compensation; \$211 million of dividends paid to stockholders; and \$138 million of capital expenditures.

Deferred revenue at the end of the December 2021 quarter increased to \$1,458 million compared to \$1,110 million as of the end of the September 2021 quarter. Lam's deferred revenue balance does not include shipments to customers in Japan, to whom title does not transfer until customer acceptances. Shipments to customers in Japan are classified as inventory at cost until the time of acceptance. The estimated future revenue from shipments to customers in Japan was approximately \$328 million as of December 26, 2021 and \$331 million as of September 26, 2021.

#### Revenue

The geographic distribution of revenue during the December 2021 quarter is shown in the following table:

Region	Revenue
China	26%
Korea	25%
Taiwan	18%
Japan	12%
Southeast Asia	9%
United States	6%
Europe	4%

The following table presents revenue disaggregated between system and customer support-related revenue:

The information provided above is only an estimate of what the Company believes is realizable as of the date of this release and does not incorporate the potential impact of any business combinations, asset acquisitions, divestitures, restructuring, balance sheet valuation adjustments, financing arrangements, other investments, or other significant arrangements that may be completed or recognized after the date of this release. U.S. GAAP to non-GAAP reconciling items provided include only those items that are known and can be estimated as of the date of this release. Actual results will vary from this model and the variations may be material. Reconciling items included above are as follows:

- Gross margin as a percentage of revenue amortization related to intangible assets acquired through business combinations, \$1 million
- Operating income as a percentage of revenue amortization related to intangible assets acquired through business combinations, \$13 million.
- Net income per diluted share amortization related to intangible assets acquired though business combinations, \$13 million; amortization of note discounts, \$1 million; and associated tax benefit for non-GAAP items (\$2 million); totaling \$12 million.

#### **Use of Non-GAAP Financial Results**

In addition to U.S. GAAP results, this press release also contains non-GAAP financial results. The Company's non-GAAP results for both the December 2021 and September 2021 quarters exclude amortization related to intangible assets acquired through business combinations, the effects of elective deferred compensation-related assets and liabilities, amortization of note discounts, and the income tax benefit of non-GAAP items.

Management uses non-GAAP gross margin, operating expense, operating income, operating income as a percentage of revenue, net income, and net income per diluted share to evaluate the Company's operating and financial results. The Company believes the presentation of non-GAAP results is useful to investors for analyzing business trends and comparing performance to prior periods, along with enhancing investors' ability to view the Company's results from management's perspective. Tables presenting reconciliations of non-GAAP results to U.S. GAAP results are included at the end of this press release and on the Company's website at <a href="http://investor.lamresearch.com">http://investor.lamresearch.com</a>.

#### **Caution Regarding Forward-Looking Statements**

Statements made in this press release that are not of historical fact are forward-looking statements and are subject to the safe harbor provisions created by the Private Securities Litigation Reform Act of 1995. Such forward-looking statements relate to, but are not limited to: our outlook and guidance for future financial results, including revenue, gross margin, operating income and net income; demand and spending for wafer fabrication equipment; supply chain conditions and their impacts on our results; and our prospects for growth. Some factors that may affect these forward-looking statements include: supply chain disruptions and/or manufacturing capacity constraints have limited and are expected to continue to limit our ability to manufacture and sell our products; trade regulations, export controls, trade disputes, and other geopolitical tensions may inhibit our ability to sell our products; business, political and/or regulatory conditions in the consumer electronics industry, the semiconductor industry and the overall economy may deteriorate or change; the actions of our customers and competitors may be inconsistent with our expectations; the severity, magnitude and duration of the COVID-19 pandemic (and the related governmental, public health, business and community responses to it), and their impacts on our business, results of operations and financial condition, are evolving and are highly uncertain and unpredictable; and widespread outbreaks of illness may impact our operations and revenue in affected areas; as well as the other risks and uncertainties that are described in the documents filed or furnished by us with the Securities and Exchange Commission, including specifically the Risk Factors described in our annual report on Form 10-K for the fiscal year ended June 27, 2021 and our quarterly report on Form 10-Q for the fiscal quarter ended September 26, 2021. These uncertainties and changes could materially affect the forward-looking statements and cause actual results to vary from expectations in a material way. The Company undertakes no obligation to update the information or statements made in this release.
