U.S. GAAP Financial Results

For the December 2023 quarter, revenue was \$3,758 million, gross margin was \$1,757 million, or 46.8% of revenue, operating expenses were \$700 million, operating income was 28.1% of revenue, and net income was \$954 million, or \$7.22 per diluted share on a U.S. GAAP basis. This compares to revenue of \$3,482 million, gross margin of \$1,655 million, or 47.5% of revenue, operating expenses of \$632 million, operating income of 29.4% of revenue, and net income of \$887 million, or \$6.66 per diluted share, for the quarter ended September 24, 2023 (the "September 2023 quarter").

Non-GAAP Financial Results

For the December 2023 quarter, non-GAAP gross margin was \$1,790 million, or 47.6% of revenue, non-GAAP operating expenses were \$662 million, non-GAAP operating income was 30.0% of revenue, and non-GAAP net income was \$994 million, or \$7.52 per diluted share. This compares to non-GAAP gross margin of \$1,669 million, or 47.9% of revenue, non-GAAP operating expenses of \$622 million, non-GAAP operating income of 30.1% of revenue, and non-GAAP net income of \$912 million, or \$6.85 per diluted share, for the September 2023 quarter.

"Lam delivered solid results to close out 2023," said Tim Archer, Lam Research's President and Chief Executive Officer. "With our investments in extending product differentiation and building a flexible and efficient global infrastructure, we are in a strong position to benefit as innovations such as AI power robust semiconductor industry growth in the years to come."

Balance Sheet and Cash Flow Results

Cash and cash equivalents, short-term investments, and restricted cash and investments balances increased to \$5.6 billion at the end of the December 2023 quarter compared to \$5.2 billion at the end of the September 2023 quarter. The increase was primarily the result of \$1,454 million of cash generated from operating activities, partially offset by \$645 million of share repurchases, including net share settlement of employee stock-based compensation; and \$264 million of dividends paid to stockholders.

Deferred revenue at the end of the December 2023 quarter increased to \$1,928 million compared to \$1,690 million as of the end of the September 2023 quarter. Lam's deferred revenue balance does not include shipments to customers in Japan, to whom title does not transfer until customer acceptance. Shipments to customers in Japan are classified as inventory at cost until the time of acceptance. The estimated future revenue from shipments to customers in Japan was approximately \$157 million as of December 24, 2023 and \$261 million as of September 24, 2023.

Revenue

The geographic distribution of revenue during the December 2023 quarter is shown in the following table:

Region	<u>Revenue</u>
China	40%
Korea	19%
Japan	14%
Taiwan	13%
United States	5%
Europe	5%
Southeast Asia	4%

The following table presents revenue disaggregated between system and customer support-related revenue:

The information provided above is only an estimate of what the Company believes is realizable as of the date of this release and does not incorporate the potential impact of any business combinations, asset acquisitions, divestitures, restructuring, balance sheet valuation adjustments, financing arrangements, other investments, or other significant arrangements that may be completed or realized after the date of this release, except as described below. U.S. GAAP to non-GAAP reconciling items provided include only those items that are known and can be estimated as of the date of this release. Actual results will vary from this model and the variations may be material. Reconciling items included above are as follows:

- Gross margin as a percentage of revenue restructuring charges, \$13 million; transformational costs, \$12 million; and amortization related to intangible assets acquired through business combinations, \$3 million; totaling \$28 million.
- Operating income as a percentage of revenue restructuring charges, \$28 million; transformational costs, \$20 million; and amortization related to intangible assets acquired through business combinations, \$3 million; totaling \$51 million.
- Net income per diluted share restructuring charges, \$28 million; transformational costs, \$20 million; amortization related to intangible assets acquired though business combinations, \$3 million; amortization of debt discounts, \$1 million; and associated tax benefit for non-GAAP items (\$6 million); totaling \$46 million.

Use of Non-GAAP Financial Results

In addition to U.S. GAAP results, this press release also contains non-GAAP financial results. The Company's non-GAAP results for both the December 2023 and September 2023 quarters exclude amortization related to intangible assets acquired through business combinations, the effects of elective deferred compensation-related assets and liabilities, amortization of note discounts, net restructuring charges, transformational costs, and the net income tax effect of non-GAAP items.

Management uses non-GAAP gross margin, operating expense, operating income, operating income as a percentage of revenue, net income, and net income per diluted share to evaluate the Company's operating and financial results. The Company believes the presentation of non-GAAP results is useful to investors for analyzing business trends and comparing performance to prior periods, along with enhancing investors' ability to view the Company's results from management's perspective. Tables presenting reconciliations of non-GAAP results to U.S. GAAP results are included at the end of this press release and on the Company's website at https://investor.lamresearch.com.

Caution Regarding Forward-Looking Statements

Statements made in this press release that are not of historical fact are forward-looking statements and are subject to the safe harbor provisions created by the Private Securities Litigation Reform Act of 1995. Such forward-looking statements relate to, but are not limited to: our outlook and guidance for future financial results, including revenue, gross margin, operating income and net income; the results we seek to accomplish through our investments; the strength of our market position and the benefits to be realized from our positioning; the role of innovations such as AI; and semiconductor industry growth. Some factors that may affect these forward-looking statements include: trade regulations, export controls, trade disputes, and other geopolitical tensions may inhibit our ability to sell our products; business, political and/or regulatory conditions in the consumer electronics industry, the semiconductor industry and the overall economy may deteriorate or change; the actions of our customers and competitors may be inconsistent with our expectations; supply chain cost increases and other inflationary pressures have impacted and are expected to continue to impact our profitability; supply chain disruptions or manufacturing capacity constraints may limit our ability to manufacture and sell our products; and natural and human-caused disasters, disease outbreaks, war, terrorism, political or governmental unrest or instability, or other events beyond our control may impact our operations and revenue in affected areas; as well as the other risks and uncertainties that are described in the documents filed or furnished by us with the Securities and Exchange Commission, including specifically the Risk Factors described in our annual report on Form 10-K for the fiscal year ended June 25, 2023 and our quarterly report on Form 10-Q for the fiscal quarter ended September 24, 2023. These uncertainties and changes could materially affect the forward-looking statements and cause actual results to vary from expectations in a material way. The Company undertakes no obligation to update the information or statements made in this release.
