"Sequential quarterly operating profit growth of approximately 500 basis points is a strong endorsement of Lam's opportunity and execution capabilities. Our guidance for record shipments in September and outlook for second half 2016 growth confirms our increased strategic relevance, strong customer trust and the differentiation of our core values. We believe that our underlying fundamentals

and multi-year outperformance opportunity remain strong on a standalone basis, and subsequent to closing our merger with KLA-Tencor we are focused on further strengthening that position and accelerating innovation for the benefit of our customers."

Balance Sheet and Cash Flow Results

Cash and cash equivalents, short-term investments, and restricted cash and investments balances increased to \$7.1 billion at the end of the June 2016 quarter compared to \$4.8 billion at the end of the March 2016 quarter. This increase was primarily the result of approximately \$1.9 billion in debt proceeds, net repayments of maturing debt, combined with \$424 million of cash generated in operating activities.

Deferred revenue at the end of the June 2016 quarter increased to \$566 million as compared to \$511 million at the end of the March 2016 quarter. Deferred profit at the end of the June 2016 quarter increased to \$349 million as compared to \$334 million at the end of the March 2016 quarter. Lam's deferred revenue balance does not include shipments to Japanese customers, to whom title does not transfer until customer acceptance.
